

Phase 3 Report

Luke McDuff

Bill Capps

Todd Brees

Wednesday November 30, 2016

- 1) No extra-credit requirements were done. This was not required for groups of three.
- 2) For the visualization we used a number of different technologies:
 - a. Ionic – an AngularJS framework to build the website
 - b. Chart.js to build visual representations of data
 - c. AWS EC2 to host website
- 3) To view queries, go to:
 - a. <http://ec2-52-91-251-221.compute-1.amazonaws.com/5Queries/#/side-menu21/page2>
- 4) If you prefer stills, the following are screen shots of the website:
